

WE ARE TRANSFORMING LIVES

ONE STUDENT, ONE CHILD, ONE FAMILY AT A TIME!

Our faculty is equipped with the skill set and expertise to inform and model intentional teaching practices within each Child Development course they teach. Our program focuses on harnessing patience, care, professionalism, trauma informed practices and skills that are crucial in caring for children and promoting learning during their formative years. For this reason, we support all student's learning by embracing practice-based pedagogy and offering a variety of supportive services and programs. We have a steadfast dedication to cultivating early childhood education.
