

STRATEGIC PLANNING COMMITTEE
AGENDA
March 16, 2009

- 1. Charge of the Strategic Planning Committee**
Review responsibilities of the committee
- 2. Committee composition**
Prepare recommendation to College Council to adjust
- 3. Update of plans**
Each member of the SPC should become an ad hoc member of the plan committees (11 plans, the District Planning Committee and the Budget committee) and take full responsibility for understanding each of the plans and keeping the committee updated on that committee's activities.
- 4. Develop two task forces:**
 - a.** Develop a matrix to evaluate the plans and keep the SPC up to date on progress toward meeting annual objectives (two fold: we need a process in place - not only for this year but for the future - to ensure that the comms have objs that fit the plan and that they are moving those plans forward)
 - b.** Develop a task force to turn the implementation plan into a matrix
- 5. Develop plans to put together a mission review task force (campus-wide) for the fall**
- 6. Begin to develop plans for orientation of campus community for fall planning cycle (as per page 6 of the Planning Handbook)**
