Interim President
Los Angeles Southwest College History

As it stands on the verge of its 50th anniversary, Los Angeles Southwest College is the product of decades of hard work, vision and perseverance to achieve the dream of its principal founder, Odessa B. Cox.

The Cox family and a small group of community members started fighting in 1947 to bring a comprehensive community college to South Los Angeles. The path to today was not easy and was the result of the dedication of many.

Today, Los Angeles Southwest College, part of the Los Angeles Community College District, houses state-of-the-art facilities, including its recently renovated Library and Little Theater as well as the brand new School of Career and Technical Education building, where students receive top-notch instruction from a dedicated group of educators.

Cox and her husband, Raymond Cox, married in 1941 in Bessemer, Alabama, moved to Los Angeles in 1943, and in 1945 opened Utopia Cleaners in Watts, which remained in business for 48 years. They were staunch believers in education and continuously sought knowledge in formal and informal educational settings. The couple also worked on projects such as to increase the hiring of African-Americans and Mexican-Americans at banks and grocery stores in Watts.

Odessa Cox would eventually join the area's Parent Teachers Association where she pushed for an improved educational experience for local students. Specifically, she worked diligently with others to change the image of African-Americans in state-adopted textbooks.

Cox and supporters also lobbied tirelessly for a college to be located in a neighborhood in South Los Angeles. For years, Cox and other residents of Watts would have to ride a trolley downtown and then catch a bus in order to attend Los Angeles City College. The trip took two hours just one way.

According to the Los Angeles Times, Cox surveyed students in all of the area's high schools and found that many of them would go to college if they could get their by foot or bicycle.

The first steps toward the realization of this dream of having a college in the area were taken in 1950 when Cox and others formed a citizen's group -- The South Central Junior College Committee. The diverse group was influential in getting the Los Angeles Unified School District Board of Education, which oversaw Los Angeles community colleges, to purchase 54 acres of land for $3,500 per acre in 1950 from the Union Oil Company at the corner of Western Avenue and Imperial Highway -- the eventual site of Los Angeles Southwest College. Another 16 acres would be purchased for $14,230 per acre from Union Oil in 1964.

A sign was placed on the site in 1950 announcing the college's expected arrival, but many years would pass before construction would begin.

That day would arrive rather quickly after the "Watts Rebellion." During the unrest from August 11-17, 1965, 34 people died — 23 of whom were killed by police and National Guard. Two law enforcement officers and a fireman were among the dead. More than 1,000 people were injured.

A California commission, under Gov. Pat Brown, later determined that the rebellion was caused by police resentment as well as a lack of jobs and educational opportunities for African-Americans.
Sandra Cox, daughter of Odessa Cox, and others believed the riots caught the attention of the Los Angeles Unified School District.

"If there was no rebellion, there would be no Southwest College," Sandra Cox, who currently serves as a Los Angeles Southwest College Foundation member, told the Los Angeles Times in 2001.

In January 1967, the Board of Education would earmark $2 million to open the college campus at Western and Imperial.

At 3:30 a.m. July 11, 1967, Odessa Cox and her colleagues, including Adele Cannon, Dr. Agnes Moreland Jackson and Sue Acosta, met at Western and Imperial to watch as the first of 13 bungalows were delivered from Los Angeles City College.

Classes started Sept. 11, 1967 with more than 600 students registered and 22 full-time faculty members, according to media reports. LASC's first president was Dr. John Grasham, and the original curricula revolved around liberal arts and academic transfer.

By 1976, LASC had seen a steady growth in its student body as well as faculty, staff and facilities. The number of students had increased to more than 5,000 and the faculty consisted of more than 100. The 13 original bungalows increased to 31 and construction had started on permanent facilities.

"I didn't do this alone. I might have conceived the idea, but from the beginning to end it took a lot of dedicated souls to bring the physical property you see today from an idea to a reality ... and it was a team effort all the way," Odessa Cox told The Sentinel newspaper in 2001. "All the way we bolstered one another's spirit, viewed the setbacks at stepping stones and moved ahead."

New facilities were eventually developed, including a library, theater and student services center. They all provided a sense of permanence and symbolism of a new era in higher education in the community.

On Feb. 20, 1987, the college's Building B was renamed the Odessa Cox Building as a result of campaign spearheaded by Los Angeles Community College District Trustee Marguerite Archie Hudson.

LASC would continue to expand in the years ahead with the construction of the Technical Education Center.

"It feels so good to see the things we have fought for for so many years finally coming to pass," Odessa Cox said at the groundbreaking ceremony for the $7 million center in January 1990.

Her comments were met with a standing ovation, according to media reports.

Currently, the LASC campus is undergoing a major transformation with more than $400 million in funds from the Los Angeles Community College District Bond Construction Program. The college's modernization efforts include updating existing buildings with new technology and building new "green" facilities.

Additional projects have included the Thomas G. Lakin Physical Education Center, Student Services Building, Child Development Center, athletic stadium and field house, Maintenance and Operations facility, central plant, Cox Annex and a multi-level parking structure.

The campus is also the site of Middle College High School, part of the Los Angeles Unified School District. Many Middle College High students take college courses at LASC to obtain their Associate's Degree while meeting the requirements for a high school diploma.

Since its opening, LASC has established itself as a key force in the educational, recreational and cultural development for the region. Several academic and occupational programs have distinguished themselves over the years, including the Nursing and Child Development departments.

Today, LASC's student body has increased to more than 8,000. There are more than 300 faculty, staff and administrators looking to help students find academic success.

More and more students each year are also taking part in online Distance Education courses, providing a new avenue in which students are receiving an LASC education.

Odessa Cox passed away in October 27, 2001, but even in her later years, she campaigned for the passage of a bond initiative so the campus could be completed.

On April 2, 2015, the college celebrated the new School of Career and Technical Education building as well as the renovated, modernized and upgraded Cox Building, which includes the refurbished Little Theater and Library.

The vision of Odessa Cox is getting closer to being fully realized.

PROCEDURE TO ADD AND DROP CLASSES

Adding Classes
After you submit your online application, you will receive an email with directions on our 8-step matriculation process.

You may enroll in open classes using the online registration system prior to the start of the term only.

To add classes once the semester begins, you must obtain an Add Permit from the instructor of the class. Bring this Add Permit to the Admissions Office. To add online classes, you must email the instructor for permission to add.

Campus Procedure
No semester courses may be added after the last day to add (published in the Schedule of Classes). Short-term and Open-Entry/Open-Exit classes have different add periods. Check with the Office of Admissions and Records for deadlines. Attending classes without being properly enrolled is not permitted.

Withdrawal
New statewide regulations are now in effect that change the way students should think about enrolling in and withdrawing from classes.

Community colleges get their money from state apportionment. Apportionment is a set amount of dollars distributed to the college districts, based on enrollment. Each class you enroll in results in compensation to the college, and that is how the college stays open.

A "W" counts as an attempt, and you only get three attempts at any one course. Once you pass the course, you cannot repeat the course. After that, the state won't pay the college for you to take the course again.

What this means for LASC students:
If you stay in a course past the "no penalty" drop date and then drop or are excluded, you receive a "W" and you have used one of your three attempts.

When you have made three attempts at a class, with any combination of "W", "D", or "F" grades, you will not be able to register for the class again. You would have to try to take the class again at a college outside the Los Angeles Community College District.

You may fill out a Course Repetition Petition for one more try citing "extenuating circumstances;" however, for the most part, the only extenuating circumstances that will work are military deployment, natural disaster, or requirement for employment. The Course Repetition Petition must be approved before the start of the term in which you are attempting to enroll in the course. The deadline to submit your Course Repetition Petition is in the semester Academic Calendar. You may only petition for a Course Repetition for the Fall and Spring semesters.

If your registration is blocked because of this rule, getting an Add Permit will not help.

What you should do:
If you're going to drop a class, drop before the deadline so you won't get a "W".

Be sure you're academically ready for classes you enroll in.

See a counselor to help you make good decisions about your education plan.

It is the student's responsibility to withdraw officially. Consult the Academic Calendar for deadlines.

Dropping Classes

THROUGH THE 2nd WEEK:
No notation ("W" or other) will appear on the student's record if the class is dropped during the first two weeks of the semester. This deadline always occurs prior to the add deadline.

THROUGH THE 11TH WEEK:
A notation of "W" (withdrawal) is recorded on the student's record for classes dropped during the 3rd through the 11th week of the semester.

AFTER THE 11TH WEEK:
Students who remain in class beyond the 11th week (or 75% of the class for short term classes) are given a grade by the instructor. That grade cannot be a "W" (withdrawal). Consult the deadline calendar in the Schedule of Classes or contact the Office of Admissions & Records.
How to Add a Closed Online Class

Visit www.lasc.edu to register for an online class. If the class and the wait list are full, refer to column #1 below. If you are not on the wait list and the class is closed, refer to column #2 below:

1. **Students On Wait list**

   The instructor will contact students from the wait list (at the beginning of the term only) if they decide to add additional students. There is no need for students on the wait list to contact the instructor.

   Instructors will only contact those students who they are approved to add. If you are not contacted by the instructor during the first week of class, that means that the class is full and no additional students will be added. There is no need to contact the instructor. Look for alternative options for classes.

   Due to the volume of requests received, only those students whose adds are **approved** will be contacted. If you are not contacted, you will not be added. There is no need to contact the instructor if your name is on the waitlist.

   Faculty will only contact you via your district assigned email address.

2. **Students Not on Wait list**

   Do not contact the instructor to add a class prior to the first day of the semester.

   On the first day of class, you must email the instructor and request to add the class (see required information below). Be aware that if instructors approve adds, they will draw from the wait list first. It is highly unlikely that you will be added if you aren't already on the wait list. Look for alternative options for classes.

   Include the section number and term in the subject line of your email. You must also include your name, Student ID number and the following in the body of your email (I__Name___request to be added to your class.)

   Due to the volume of requests received, only those students whose adds are approved will be contacted. If you are not contacted, you will not be added. There is no need to continue to contact the instructor once you submit a request to add a closed class.

   Faculty will only contact you via your district assigned email address.

Student Success and Support Programs

Student Rights and Responsibilities
Student Success and Support Programs is a process that assists a student in achieving his or her education goals. It is an agreement between the college and student who enrolls for credit and non-credit courses. We ask that you participate in a partnership with us to ensure your educational success.

Step 1 – Apply for Admissions
Submit a complete Application for Admission online at www.lasc.edu. Your application will be processed within 2-3 business days after it has been submitted. You will receive an email that explains your next steps. NOTE: You will receive a district issued email once you have been admitted. We will notify you that you have been admitted via your personal email address; however, once you have been admitted, we will only correspond via your district issued email address. Check your student email regularly.

Step 2 – Attend an Orientation
COMPLETE THE IN-PERSON ORIENTATION. During orientation, you will receive information regarding campus resources and programs. Important policies and procedures of the college will also be covered. Bring your student issued ID number. You must obtain proof that you have completed Orientation before you can take the Math and English assessment tests. A campus tour of important student resource centers is included. Allow approximately two hours to complete the orientation. You are required to wait at least one day between Orientation and Assessment.

Step 3 – Go to the Assessment Center (SSB-204)
Trained staff will help you through the matriculation process. You may be asked to take the assessment test. No children are allowed in the testing area. You must obtain proof that you have taken the assessment test before you can meet with a counselor.

Step 4 – See a Counselor (SSB-227)
You must see a counselor for assistance with completing your student educational plan. Counselors will help you select appropriate classes that meet your educational goal(s) and inform you about the limitations and adverse effects of withdrawals and course repeats. No appointment is necessary.

Step 5 – Register for Classes
You must register at www.lasc.edu. For your convenience, detailed registration instructions are posted on page 9 in the Schedule of Classes.

Step 6 – Apply for a Fee Waiver to Pay Your Fees
Go to the Financial Aid Office, SSB-104, to apply for a fee waiver. If you qualify, the waiver can be used to pay for your fees for the entire academic year. If you do not qualify, you will need to go to the Business Office to pay your fees. Fees are due once the semester begins.

Step 7 – Take your Student I.D. Picture
Once you have registered for class(es) you are eligible to receive a free student I.D. card. You must bring your printout from the Business Office, which lists your classes along with your student I.D. number and a photo I.D. (Driver’s license or California I.D.) to SSB-204.

Matriculation Exemptions:
Some students might be exempt from matriculation. However, for students who have long-range educational objectives and who have little or no previous college experience, full matriculation is strongly recommended. You may be exempt from the matriculation process if any of the following conditions apply to you:

Have an Associate’s Degree or higher.
Completed college-level English and math classes at another college.
Taken the assessment test at another college within one year.
Want to take a class for personal enrichment.

If you wish to request exemption from matriculation, consult a counselor to see if you are eligible.

FOR MORE INFORMATION, CALL THE STUDENT SUCCESS AND SUPPORT PROGRAMS OFFICE, AT (323) 241-5361. THE OFFICE IS LOCATED IN SSB ROOM 204.

- Usted ha tomado el examen de evaluación en otro colegio entre un año.
- Usted desea tomar una clase para el enriquecimiento personal.

Si desea solicitar la exención del proceso de matriculación, consulte a un consejero para ver si usted es elegible.

CALIFORNIA NON-RESIDENT TUITION EXEMPTION (AB540/AB2000)

AB 540 was signed into California law on October 12, 2001 to authorize students who meet certain criteria to pay “in state” or “resident’s” tuition rates (only $46 per unit at Los Angeles Southwest College). This includes undocumented students and nonresident U.S. citizens. To be eligible, students must:

• Have attended a California high school for three or more years (9th grade counts),
• Have graduated from a California high school or obtained the equivalent of a high school diploma (how long ago does not matter),
• Be willing to apply for legal residency as soon as possible,

To take advantage of this lower tuition rate, fill out the AB540 Exemption Form available in the Admissions and Records Office or Bridges to Success offices. There is no maximum number of years for which you can receive this lower tuition rate. For more information, call (323) 241-5321 or (en Español) (323) 241-5281. AB540 students are eligible to apply for and receive non-state funded scholarships and state funded financial aid and grants (See Financial Aid for more information).

Assembly Bill 2000 (AB 2000) was passed in 2014 and expands the definition of students eligible for AB540. AB 540/AB 2000 allows students meeting the criteria below to pay in-state tuition, the same as resident students (e.g. undocumented, permanent resident, U.S. citizens) at California public colleges and universities. Starting January 1, 2013, the California Dream Act (Assembly Bills 130 and 131) provided the opportunity for AB540 students to receive Cal Grant A & B Entitlement awards, Cal Grant C awards, institutional grants and community college fee waivers. To be eligible for AB540, you must meet all the following criteria:

The student must have:

Attended a high school (public or private) in California for three or more years, or
Attained credits earned in California from a California high school equivalent to three or more years of full-time high school course work and attended a combination of elementary, middle and/or high schools in California for a total of three or more years.¹ and
Graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam) and
File an affidavit with the college or university stating that he or she has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Students who are nonimmigrants who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status, under Title 8 of the United States Code, sections 1101(a)(15)(T) or (U) are eligible for this exemption.²

Students who are nonimmigrants, other than those with T or U visa status as noted above, (for example, those who hold F (student) visas, B (visitor) visas, etc.) are not eligible for this exemption.

The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law.

NON-RESIDENT STUDENTS

Undocumented students who do NOT qualify for the AB 540 tuition exemption shall be entitled to exemption from nonresident fees on the basis of individual financial need in accordance with regulations adopted by the Chancellor (LACCD Board Rule 8100.15). If the students meet the eligibility requirements on the Nonresident Tuition Fee Waiver (available in Admissions and Records, Financial Aid and Bridges to Success), they may be eligible to receive a nonresident tuition exemption and ONLY pay the current enrollment fee of $46 per unit. Undocumented students do not qualify for state or federal financial aid.

NON-RESIDENT TUITION EXEMPTION FOR ELIGIBLE CHILDREN OF DEPORTED OR VOLUNTARILY DEPARTED PARENTS (SB141)

SB 141, which became effective on January 1, 2014, and added Education Code section 76140(a)(5), requires districts to exempt from nonresident tuition a student who is a United States citizen and who resides in a foreign country, if he/she meets specified criteria. SB 141 does not grant residency, but exempts a qualified student from paying nonresident tuition. To be eligible, students must:

Demonstrate a financial need for the exemption.

Have a parent or guardian who has been deported or was permitted to depart voluntarily under the federal Immigration and Nationality Act in accordance with Section 1229c of Title 8 of the United States Code. The student shall provide documents from the United States Citizenship and Immigration Services evidencing the deportation or voluntary departure of his or her parent or guardian.

• Have moved abroad as a result of the deportation or voluntary departure specified in subparagraph (B).
• Have lived in California immediately before moving abroad. The student shall provide information and evidence that demonstrates the student previously lived in California.

• Have attended a public or private secondary school (i.e., a high school, trade school, or adult school) in the state for three or more years. The student shall provide documents that demonstrate his or her secondary school attendance.

• Upon enrollment, be in his or her first academic year as a matriculated student in California public higher education (i.e., a campus of the California community colleges, California State University, or University of California) and will file an affidavit with the institution stating that he or she intends to establish residency in California as soon as possible.

Eligibility for Federal and State Aid

SB 141 students, as U.S. citizens, may apply and qualify for federal financial assistance (e.g. Pell Grants, Federal Supplemental Educational Opportunity Grant (FSEOG)), and federal student loans.

Until they establish California residency, SB 141 students do not become residents for eligibility purposes for any state-funded program (e.g. BOG Fee Waiver, etc.).

Apportionment

Colleges may claim state apportionment for FTES generated by students exempted pursuant to SB 141, and their attendance should be reported as resident FTES for apportionment purposes.

ESTUDIANTES NO RESIDENTES

Empezando con el verano del 2009, estudiantes indocumentados quienes no califican bajo la ley AB540, serán exentos de los pagos como no residente en base a la necesidad financiera individual de acuerdo con la regulación 8100.15 (LACCD Board Rule 8100.15) adoptada por el canciller (Chancellor) de LACCD. Si los estudiantes reúnen los requisitos estipulados en la Solicitud para la Exención de Cuotas de Matrícula como no Residente (disponible en las oficinas de: Admisiones y Expedientes, Ayuda Financiera, y Puentes al Éxito,) pueden ser elegibles para recibir la exención a cuotas para no residentes y pagar solamente la cuota actual de inscripción de $46 por unidad. Estudiantes indocumentados no califican para ayuda financiera estatal o federal.

K-12 STUDENTS SPECIAL ADMISSION

Los Angeles Southwest College may permit the admission of K-12 students who, in the opinion of the President or designee, can benefit from instruction. Approval by the appropriate principal, high school counselor and parent (or guardian) is required for all K-12 applicants. Additional approval of the Dean of Student Services is required for all applicants ages 14 and under. The intent of this program is to provide educational enrichment opportunities for a limited number of eligible ninth through 12th grade students who fulfill special admissions standards.

The college reserves the right to exclude or limit enrollment into impacted programs and in other programs where health, safety, instructional methodology, facility constraints, or legal requirements are deemed inappropriate for special admission students. Special admission students must conform to the College’s academic rules and regulations and the code of conduct expected of all college students. Some fees may be required.

K-12 students must complete the supplemental application for high school students and the LASC application for admission. The application can be processed at www.lasc.edu (click on the Apply for Admission link), and the supplemental application can be downloaded at www.lasc.edu, click on the “Admission” link in the menu, and then click on “High School Students” in the sub-menu. Print the Supplemental application and make sure you obtain all necessary signatures and approvals. The student must bring the completed form along with a photo I.D. to the Admissions and Records Office, SSB-102, for processing prior to the start of the semester.

FEE EXEMPTION FOR SPECIAL PART-TIME STUDENTS, GRADE K-12

Students admitted as special, part-time students grade K-12 and enrolling in 11 or fewer units are exempt from enrollment fees for all terms. Nonresident students who are enrolled in fewer than six units are exempt from enrollment fees and non-resident tuition. Students enrolled in more than 11 units will be charged enrollment fees.
IMPORTANT REGULATIONS

Please note: The Census date is a date in which all enrollment at LASC is counted and reported to our District Office in order to determine our campus funding (apportionment).

All courses must be added by the census date.

All courses must be dropped before the census date to avoid receiving a “W” grade (receipt of “W” grades in the same course will have further consequences). The period of time to drop a course without record of enrollment has been reduced. The deadline to drop without receiving a “W” grade now occurs before the census date. Drops that occur on or after the census date will result in a “W” grade. This should encourage you to make a decision to drop a class earlier. This will provide faculty with the ability to make add decisions sooner (which may allow more students to be added). Adding courses by census increases the number of students counted in apportionment.

Students receiving a satisfactory grade may repeat the same course due to extenuating circumstances. Due to legally mandated training – if necessary to meet legally mandated training requirements as a condition of paid or volunteer employment. Course is a special course for students with disabilities, which the student needs to repeat for one of the reasons described in section 56029 of the California Code. Recency - student is required to have taken the course within the past five years for admission to a college program. Extenuating circumstances – documentation is provided to show that previous grade was, at least in part, the result of extenuating circumstances.

The Board of Governors adopted regulations that limit apportionment for enrollment in a single course to three enrollments for any credit courses, taken within the Los Angeles Community College District except for courses identified as “repeatable,” such as Kinesiology and Performing Arts, in accordance with Title 5, section 55041, subdivision (c).

The Board of Governors approved changes that will establish system-wide enrollment priorities designed to ensure classes are available for students seeking job training, degree attainment or transfer as well as to reward students who make progress toward their educational goals. New students who have completed college orientation, assessment and developed education plans as well as continuing students in good academic standing who have not exceeded 100 units will have priority over students who do not meet these criteria.

**Enrollment occurs when you receive an evaluative (letter grade) or nonevaluative (“W”) symbol, pursuant to Section 55023. You will not be able to add courses in which you have three prior attempts with record of enrollments (“W”, NP, NC, D, or F grades).

All credit course repeats and withdrawals in your enrollment history in the LACCD will be counted toward the new limit, regardless of when you took the course. If you need to repeat a course in which you have three or more records of enrollment:

You may take the course outside of the Los Angeles Community College District.

You may petition to retake the course within the district (subject to certain conditions) with extenuating circumstances – this fourth repeat will not count in apportionment.

WHAT SHOULD YOU DO?

Be sure that you are academically prepared for classes that you enroll in (If you have questions, talk to a counselor). If you must drop a course, drop it before the specified deadline for dropping a class without a grade of “W”.

See a counselor before making decisions that could affect your education plan.

Visit the Financial Aid office before making decisions that may affect your financial aid.

Register for classes on your assigned registration appointment time.

Read your email from the campus – it is sent to your District Assigned Email Address ONLY!

New students should be sure to complete the matriculation process in order to obtain higher registration priority.

MATH SEQUENCE
OVERVIEW OF MATH COURSES OFFERED

Basic Skills 35CE (0 Units) – Basic Math Skill (Formerly Math 105)
This noncredit course is designed to strengthen basic Math skills. Topics include rounding, estimating, computing whole numbers, fractions, decimals and presents.

Basic Skills 28CE (0 Units) – Basic Skills Pre-Algebra (Formerly Math 112)
This noncredit course bridges the gap between arithmetic and algebra. It reviews arithmetic and introduces concepts of algebra including signed numbers, variables, exponents, mathematical sentences and linear equations. Concepts, computational skills and problem-solving skills are introduced and practiced to build mastery and proficiency.

Math 110 (5 Units) – Introduction to Algebraic Concepts
Math 110 is an accelerated pathway option preparing students for Math 115 (Elementary Algebra). The material covered is equivalent to that covered separately in Math 105 (Arithmetic) and Math 112 (Pre-Algebra). Course Credit may not be applied toward satisfaction of Associated degree requirements. There is no prerequisite for Math 110.

Math 115 (5 Units) – Elementary Algebra
This is the equivalent of 1st year high school algebra, done in one semester required for an A.A. degree (may be taken by exam).

Math 125 (5 Units) – Intermediate Algebra
The equivalent of 2nd year high school algebra, done in one semester. To earn a bachelor's degree at a CSU, students must either pass a CSU math test beyond the Math 125 level or take a math course beyond Math 125.

Math 122 (5 Units) – Intermediate Algebra for Statistics (General Education)
Math 122 is designed as the prerequisite course for students (Liberal and Social Science majors) who are required to complete Math 227 (Statistics) for Math 215 (3 Units)*
Principles of Mathematics I

Math 216 (3 Units)*
Principles of Mathematics II

### ONLINE CLASSES

Online courses use a Learning Management System (LMS) to utilize features such as course documents, discussion boards, assignments, quizzes, gradebook, lectures, and online conferences. Students do not typically attend a physical classroom when participating in an online course. All course materials, instruction, discussion, and assessment are posted and completed online. Online courses require of the student and instructor the same amount of course work and hours outside of the classroom as traditional courses; they are offered in a more flexible and independent environment.

All online classes at LASC now use Canvas as the LMS. Log in to see your online classes at [https://ilearn.laccd.edu](https://ilearn.laccd.edu). Please note that most instructors do not make their online classes accessible in Canvas until the first day of the term. For more online education resources visit [http://www.lasc.edu/students/onlineservices/index.html](http://www.lasc.edu/students/onlineservices/index.html).

HYBRID CLASSES
A Hybrid course includes all requirements of the Online-Assisted course, utilizing up to 50% of Online features, such as Course Documents, Discussion Boards, Virtual Classrooms, Groups, Assignments, External Links, Digital Drop Boxes and Grade Books, etc. A Hybrid course can: 1) utilize Course Management System (CMS) features to enhance communication and collaboration that is supplemental to in-class participation, 2) utilize the CMS to strictly enhance course content delivery, or 3) use a combination of the two. The course can be offered during regularly scheduled class times or with Online components that replace some of the regularly scheduled class meetings. Notice of face-to-face class sessions will be given by instructors in their syllabi and in the class schedule.
